FUJITSU THAILAND (FTH) • STRATEGIC KEYNOTE

Empowering Enterprise ERP with Microsoft Copilot AI

Advancing Dynamics 365 Finance & Operations into Autonomous AI & Unlocking Strategic Value for Fujitsu Thailand

1. Transition to Autonomous ERP

Transforming repetitive manual accounting into an intelligent system that reads, validates, and pre-drafts invoices with speed and precision.

2. 100% Thai Tax Compliance

Purpose-built for Thai Revenue Department requirements: Withholding Tax, VAT 7% (PP.30), PND 3/53, 50 Tawi certificates, and end-to-end e-Tax Invoicing.

3. Strategic Value for FTH

Establishing distinctive market leadership as the owner of high-value AI ERP Intellectual Property (IP), reinforcing Fujitsu as the top trusted partner.

Presenter: Solution Principal & Executive Host, Fujitsu Thailand (FTH)

Duration: ~2 min | • Ready for Live Demo Handover

MARKET DYNAMICS & BUSINESS CHALLENGES

The Shift: From System of Record to System of Intelligence

Navigating Thai financial and tax complexities, and unlocking Fujitsu's breakthrough opportunity.

⚠️ TRADITIONAL ERP LIMITATIONS

- **Heavy Manual Workload:** Accounts Payable teams spend >70% of time manually verifying PDF invoices and paper receipts.
- **Human Error Risks:** Typos in 13-digit Tax IDs or 5-digit branch codes trigger costly month-end tax filing discrepancies.
- **Month-End Bottlenecks:** Volume spikes create severe month-end stress, delaying PP.30 filings and impacting cash visibility.

Cost Center Burden & Team Burnout

🏛️ STRICT THAI TAX MANDATES

- **e-Tax Mandate:** Revenue Department requires strict XML / e-Filing schemas requiring 100% pre-validation.
- **Complex WHT Rules:** Variable 1%, 2%, 3%, 5% rates demand exact categorization based on the nature of services.
- **Penalty Exposure:** Late or erroneous returns lead to surcharges, statutory interest, and unnecessary audit risks.

Demands Continuous Pre-Validation

🚀 FUJITSU'S AI OPPORTUNITY

- **System of Intelligence:** Elevating D365 to analyze, pre-validate, and predict issues before transactions post.
- **Human-in-the-Loop:** AI prepares draft transactions; finance professionals retain exclusive approval authority.
- **Market Differentiator:** FTH delivers modern AI innovation that traditional competitors in Thailand cannot match.

Strategic Growth Engine & High Value

💡 **Core Insight:** Freeing finance professionals from repetitive data entry so they can focus on high-value strategic financial management.

PRODUCT EXCELLENCE & FUJITSU STRATEGIC VALUE

Strengthening D365 & Maximizing Fujitsu Value

A strategic technology fusion that drives mutual ROI for our clients and Fujitsu Thailand.

💎 1. D365 Product Enhancement

• Native Copilot Fusion
Direct integration with Copilot Studio and Azure AI via Dataverse and standard APIs—zero external data leakage.

• Autonomous Draft Invoice Preparation
AI reads documents, validates 3-way matching rules, and creates draft vendor invoices—slashing AP review time by >70%.

• Strict Human-in-the-Loop Governance
AI prepares validated drafts; accountants retain exclusive approval authority before any journal posting.

• Total Thai Tax Compliance
Full support for PP.30, PND 3/53, 50 Tawi certificates, and Revenue Dept e-Tax XML formats.

🏆 2. Fujitsu (FTH) Strategic Value

• First-Mover Advantage in Thailand
FTH becomes the first partner offering a pre-packaged, AI-infused Thai Localization solution, creating a strong moat.

• High-Margin Reusable IP Asset
Packaged as commercial IP, enabling rapid deployment across enterprise clients with lower implementation costs.

• Expands Japanese MNC & Enterprise Footprint
Tailored to Japanese MNCs and major Thai conglomerates seeking modern, compliant ERP modernization.

• Reinforces Global Trusted Partner Brand
Combines Fujitsu's renowned Japanese quality and governance standards with Microsoft's premier AI technology.

🎯 **Strategic Impact:** Transitioning from bespoke custom implementation to leading the market with proprietary Intellectual Property.

✓ High Margin ✓ Scalable ✓ Repeatable

SOLUTION ROADMAP & LIVE DEMONSTRATION

Executive Agenda & Transition to Live Solution Pitch

Today's 12-slide walkthrough and formal handover into the live interactive demonstration platform.

KEY MILESTONES IN THE LIVE INTERACTIVE DECK (12 SLIDES)

1. **Copilot Studio Official Architecture (Slide 3)**
   Multi-Agent Framework and 100% secure enterprise integration with D365 via Dataverse.
2. **Top 5 Thai Localization Use Cases (Slide 4)**
   Live walkthrough: AP Invoice Intelligence, Thai Tax Copilot, e-Tax Gateway, and Continuous Reconciliation.
3. **8-Week POC Delivery Plan & Rapid ROI (Slides 10-11)**
   Pragmatic, low-risk deployment roadmap delivering fast measurable value and fast payback.
4. **Dual-Host AI Voice & Auto-Advance Narration**
   Production neural studio voice in English & Thai with automated auto-tour mode.

READY FOR LIVE DEMONSTRATION

"Without further ado, let us now transition directly into the live interactive platform..."
